

WILLIAM MICHAUD

Computer Science and Engineering Student
Seeking a 4-month internship starting May 2026.

Education

- INSA Lyon 2022-2027
GPA: 4.0
Studying Computer Science and Engineering

Experience

- ICPC 2024; 2025
International Collegiate Programming Contest
Ranked 18th out of 142 teams in the SWERC, securing qualification for the ICPC Europe Championship.
Collaborated in a team of 3 to solve complex algorithmic problems under time-pressure.
- Prologin 2022; 2023; 2024; 2025
French National Programming Competition
I've been a finalist four times in one of France's largest programming competition.
- France-IOI 2020
Castor Informatique
I placed first among over 500,000 participants in the 2020 edition.
This is the largest algorithmic competition for French high schoolers.

And many more...

- Volunteering 2023-2025
In multiple campus associations
I have held several roles in INSA Lyon student associations:
 - President: 2025
 - Vice-President: 2025
 - Treasurer: 2023, 2024

Personal Projects

- Portfolio website
Developed and self-hosting my personal website to experiment with various web technologies (Svelte, Next.js, Flask, PHP).
- Streaming platform
A PC and web application for searching, downloading, and watching TV series, integrating multiple torrent clients and custom video players.
- Trading backtester
A backtesting framework for algorithmic trading strategies, allowing me to train and compare neural networks for stock price prediction and sentiment analysis, via a web interface.

And many other projects on my GitHub!

Languages

- French
Native language

About me

Currently looking for a 4-month internship starting May 2026.

My experience with national and international programming contests have taught me how to work efficiently and precisely even under high pressure.

I'm also experienced in team leadership through multiple student association roles.

Skills

- Algorithmics
- AI / ML
- Web
- Big Data
- Cybersecurity
- Trading
- Python
- C / C++
- JS / React
- C#
- PHP
- Java
